

Auray Professional Windshield for Shotgun Microphones (5.5")

Key Features

- Open Cell Foam Matrix Technology
- 0.9" Simulated Rabbit Fur Covering
- Reduces Wind Noise up to 40 dB
- 360° Protection
- Tapered Rubber Base
- Reduces Vocal Plosives
- Protects Mic from Moisture and Dirt
- 5.5" Inside Depth
- For Mics with 0.7 to 0.9" Diameter

*The **Auray WSS Series Professional Windshield** delivers superior 360° wind protection with acoustic transparency. They are engineered for dramatic reduction of unwanted broadband wind noise and vocal pops with very little high frequency loss, for exceptionally accurate recordings.*

This WSS-2014 Professional Windshield has an inside depth of 5.5" and is designed for use with many shotgun microphones. It features a specially manufactured open-cell foam matrix surrounded by a layer of 25mm thick simulated rabbit fur. This diffusion technology lowers wind velocity in a controlled air space around the microphone, thereby reducing wind noise without muffling the sound. It also features an airtight tapered rubber base that seals out wind from the rear of the microphone, greatly improving isolation and rear wind protection.

When used on a shotgun microphone, this slip-on windshield is effective in minimizing wind noise and plosive sounds. It is most effective in light breeze to strong breeze conditions (4 to 25 mph) and users can generally expect a 24 to 40 dB reduction in wind

noise with negligible dampening of high frequencies. For most applications, the negligible high-frequency dampening is a worthwhile exchange for the dramatic wind noise reduction.

In addition to superior 360° wind protection, the WSS-2014 helps prevent moisture and dirt from damaging your microphone. The windscreen is designed to fit microphones from Audio-Technica, Neumann, Røde, Sanken, Sennheiser and others.

The WSS-2014 Professional Windshield for Shotgun Microphones is an advanced solution for outstanding wind protection with acoustic transparency.

Fits these and other similar sized microphones:

Audio-Technica AT 835ST (BP4029), AT 897

Neumann KMR 81i

Panasonic WM-L30

Røde NTG-1, NTG-2, VideoMic

Sanken CS 1, CS 2

Sennheiser MKH-60

Sony DXC-637, DXC-D30P

Items Included

- Auray Professional Windshield for Shotgun Microphones (5.5")
- Limited 1-Year Manufacturer Warranty
