- Heavy-Duty Dual Zipper on Three Sides
- User-Replaceable, Flush-Mounted Wheels
- Sturdy Rubber Feet & Skid Plate
- Rigid Metal Frame & Styrene Construction
- Weather-Resistant 600D Ballistic Nylon

*Protect, store, and transport two C-stands with turtle bases, large light stands, boom arms up to 50" long, and a variety of related accessories with the sturdy, black **LKB-RCS Light Kit Bag Rolling C-Stand Case** from **Impact**. Photographers will appreciate the spacious main compartment that features a three-sided, dual zipper opening and two heavy-duty fabric fastening, interior tie-down straps for securing gear. The case's 51" interior length makes it possible to place two select turtle bases end to end, as well as accommodate gear that's too long to fit in many other cases.*

Carry the case with the dual center straps and contoured ABS plastic interlocking handle, or with the padded haul handles located top and bottom. The case may also be rolled over level ground with the two flush-mounted, user-replaceable wheels on the bottom. Flush-mounted skateboard-style wheels make packing and maneuvering through narrow openings easy. Underneath the case are small skid plates for each wheel, and long rubber feet to help protect the bottom of the case from abrasions and water damage. For strength and durability, the case employs a rigid metal frame and styrene panel construction. The exterior shell is made of weather-resistant 600D ballistic nylon.
