

LS-BHA

Baby Ballhead Adapter

INSTRUCTIONS

Introduction

Thank you for choosing Impact.

The Impact LS-BHA Baby Ballhead Adapter lets you turn any light stand or adapter with a 5/8-inch baby pin into a platform for mounting ball or pan & tilt tripod heads. Add functionality to a light stand or combo stand by using the LS-BHA to attach a standard photo or video head with a 3/8-16 mounting thread. By removing the locking knob, the adapter's receiver quickly converts into a 1/8-inch junior pin for compatibility with stands with junior receivers.

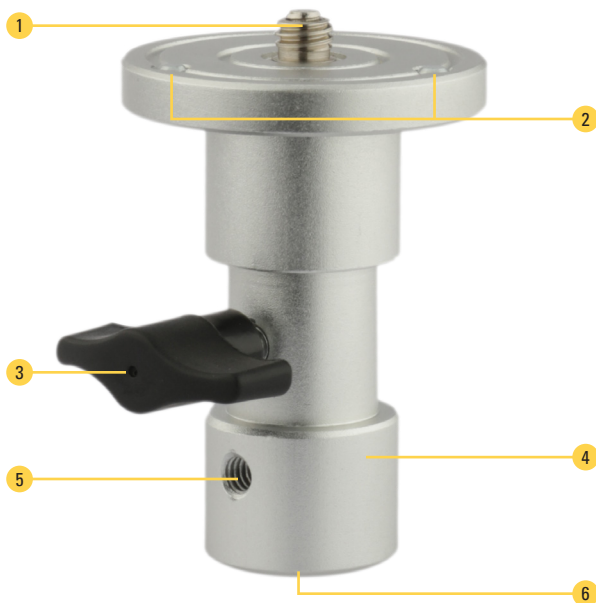

This adapter is also a convenient way to mount a tripod head in nontraditional ways with grip equipment such as booms, grip arms, and super clamps. This sturdy aluminum adapter features a 2.2-inch base diameter that will comfortably accommodate most tripod heads, and it has three setscrews to securely lock the head to the adapter.

Precautions ⚠

- Please read and follow these instructions, and keep this manual in a safe place.
- Make sure that the tripod head is securely mounted onto the thread.
- Make sure setscrews are snug before proceeding.
