- USB-C Bus-Powered Operation
- Stereo/Mono Output Selector
- 3.5mm Headphone Monitoring Jack
- Durable All-Metal Construction

*The **Kopul BLT-96** is a rugged, professional-grade Bluetooth audio direct box that wirelessly connects Bluetooth-enabled devices—such as smartphones, tablets, and laptops—to mixing consoles, PA systems, and studio monitors. With Bluetooth 5.3, balanced XLR outputs, and high-resolution audio support up to 24-bit / 96 kHz, the BLT-96 delivers reliable, high-fidelity audio in any setting—on stage, in the studio, or on the go.*

Its compact metal housing includes stepless volume control, stereo/mono switching, and a 3.5mm headphone output for real-time monitoring. Powered via USB-C, it draws bus power directly from your device or a USB wall adapter—no batteries or external power supplies required. Whether you're backing your live set with tracks from your phone or piping reference audio into a mixing console, the Kopul BLT-96 makes it effortless—and wireless.

Wireless Audio for Pro Gear

Stream Bluetooth audio directly to mixers, interfaces, and PA systems

24-Bit / 96 kHz Audio Quality

Supports high-resolution audio transmission over Bluetooth 5.3

Balanced Stereo XLR Outputs

High-fidelity audio transformers and dual XLR connectors ensure clean, noise-free signal delivery

Stepless Output Level Control

Smooth, variable output knob for precise level adjustments

Mono/Stereo Switch

Choose between stereo or summed dual-mono output for flexible routing

Headphone Monitoring

3.5mm TRS jack for real-time headphone monitoring

USB-C Powered

Runs on USB bus power from your laptop or mobile device—no batteries required

Bluetooth 5.3

Reliable wireless streaming from up to 100 feet away

Compatible with

- Bluetooth A2DP-enabled devices
- PA systems and studio monitors
- Computers, laptops, smartphones, and tablets

Items Included
